H13-811_V3.0 Certification Exam Dumps Questions in here [May-2022]
Updated H13-811_V3.0 Exam Practice Test Questions

NO.21 What are the alarm levels

* urgent
* secondary
* important
* hint

NO.22 By modifying the IP or city name that provides services to the outside world, Direct traffic to the high-defense machine room, All traffic is cleaned in the high-defense machine room, and the cleaned business traffic is returned to()

* High-defense machine room
* DNS service
* User origin site
* Client side

NO.23 The bandwidth of public network elastic load balancing can be adjusted.

* True
* mistake

NO.24 Description of the secret key, Which of the following is correct?
* The key pair information used by the elastic cloud server can be queried through the console
* It is not possible to create a key pair to log in to the Windows single-sex cloud server
* You can change the key pair to log in to the elastic cloud server to log in with a password
* You can use the key to authenticate when logging in with VNC

NO.25 Map What are the advantages of Reduce service?
* Stablize
* open
* Easy to use
* low cost

NO.26 Which of the following cloud services will the data backed up by the cloud hard drive be stored?
* Elastic Cloud Server ECS
* Object storage service OBS
* Cloud hard disk service EVS
* Bare Metal Server BMS

NO.27 Inter-Internet communication between two sites,IPSecVPN can be deployed on the firewalls at both ends to protect the mutual access traffic between the two intranets.
* True
* False

NO.28 There are two ways to create an encrypted image: Created by encrypted elastic cloud server and created by external image file.
* True
* mistake

NO.29 What are the ways to connect to the public network (Internet)?
* Elastic public network ip
* Cloud monitoring
* NAT gateway
* Elastic load balancing

* The routing table consists of a series of routing rules, Used to control the flow of outgoing traffic from subnets in the VPC
* If you do not need to control the flow of the subnet, In the case of the default VPC intranet interworking, Then use the default routing table, No need to configure custom routing strategies
* When the user creates a VPC, The system will automatically generate a default routing table for it, The meaning of the default routing table is VPC intranet intercommunication
* The routing table does not allow users to add custom routes

NO.31 What are the VPC access rights control?
* fingerprint
* password
* Network ACL
* Security group

NO.32 How does the elastic cloud server construct a logically completely isolated network area?

* Elastic scaling
* Virtual private cloud
* Cloud audit
* Cloud container engine

NO.33 On which service is the backup and snapshot data of the RDS database instance stored?

* CES
* OBS
* ECS
* VPC

NO.34 GPU is suitable for application scenarios such as graphics rendering, engineering drawing and desktop cloud scenarios running in a virtualized environment?

* True
* mistake

NO.35 The API gateway service currently supports API integration and API openness including the entire HUAWEI CLOUD.

* True
* False

NO.36 in the DDoS high defense network architecture, Which of the following modules is the function of detecting and cleaning user traffic?

* High imitation IP
* DDoS cleaning cluster
* User business
* DDoS high imitation
