Latest Okta-Certified-Administrator Exam Dumps Recently Updated 130 Questions

You can read the Okta Certified Administrator Exam certified salary:

The salary that you will get after getting the Okta Certified Administrator certification depends on what type of career you are looking for. It is important for you to know that if you are looking for a career at the entry-level, then it will be more than USD70,000 per year. You can even change your job to these jobs if they are related to security at the entry-level where it is more than $120,000 per year. If you are working at the advanced level in this industry, then it is possible that there will be some direct correlation between the salary you get and the number of years that have passed since your first job in this industry.

- In England, the average salary is $60,000- In India, the average salary is ?1,20,000- In the United States, the average salary is $93,000- In Ireland, the average salary is $55,000 **NEW QUESTION 71**
