Dumps of 31861X Cover all the requirements of the Real Exam [Q17-Q33

Dumps of 31861X Cover all the requirements of the Real Exam Correct Practice Tests of 31861X Dumps with Practice Exam NEW QUESTION 17

On an Avaya Aura 7.x deployment with shuffling turned on within Communication Manager (CM), which statement describes the media processing resources or Digital Signaling Processor (DSP) requirements for a SIP-SIP two-party call between endpoints using the same codec?

* This call will shuffle after initial call set-up; i.e., one media-processing (DSP) channel is required for the first 20 seconds of the call, for each party.

- * This call cannot shuffle, and two media-processing (DSP) channels are required for the entire call duration.
- * SIP-SIP two-party calls will use SIP Direct Media, so no media-processing (DSP) channels are required for this call.
- * SIP-SIP multi-party calls do not shuffle, and after setup use one media processing (DSP) channel for the entire call.

NEW QUESTION 18

Yourare designing an addition to a customer's existing Avaya Aura system. The addition will include 575 IP sets, of which 200 will also use Avaya Equinox for the Desktop, 175 will use Desktop P2P Video, and 25 of them will also need Extension to Cellular (EC500). There are 75 other new users who will use Avaya Equinox for iOS as their only UC Client or endpoint. The customer does not want a la carte licensing for applications not covered by Core Suite, and will purchase other Avaya Aura Suites as

required.

How many Core Suite licenses are needed for the addition?

- * 675
- * 650
- * 625
- * 575

NEW QUESTION 19

A customer has a new location with 1,900 users. They require a UC solution that will support 20% growth without adding additional hardware. They are interested in minimizing the equipment footprint and do not require redundancy.

What will meet customer's needs?

- * Communication Manager Simplex with Survivable Core
- * Communication Manager Simplex
- * Communication Manager S8300
- * Communication Manager Duplex

NEW QUESTION 20

One of the requirements of a proposal you are working on, is the ability to query an Active Directory database for contact Information from the customer's Avaya 96XX SIP Phones.

To support this functionality, which component must be included in your solution?

- * Avaya Aura Devices Services
- * Communication Manager
- * A DHCP server
- * System Manager

NEW QUESTION 21

You are putting together a proposal for a Communication Manager solution that has the following requirements:

- * 300 9611G telephones running H.323
- * 275 9641GS telephones running SIP
- * 75 Analog telephones
- * 350 3129 telephones

* 100 Avaya Equinox clients 300 9611G telephones running H.323 275 9641GS telephones running SIP 75 Analog telephones

350 J129 telephones

100 Avaya Equinox clients

NEW QUESTION 22

You are recommending the WAN link requirement per branch for a multi-location customer. The customer estimates the branch Inter-office communication use rate over the WAN to be one trunk per 20 branch users, and there are 460 users at each branch. You assume that after all header compressions have been applied, there is a 30% protocol overhead, and the G.729 codec being used provides 7.2 kbps.

How much bandwidth is needed for voice traffic on the WAN link for each branch?

- * 187.2 Kbps
- * 115.9 Kbps
- * 165.6 Kbps
- * 215.3 Kbps

NEW QUESTION 23

You are explaining to your customer that Avaya Aura Media Server (AAMS) has been adopted by Communication Manager, but Is not a direct replacement for media gateways.

Which two capabilities are supported by the Avaya Aura Media Server? (Choose two.)

- * TDM interfaces for digital, analog stations and trunks
- * V.150.1 (Modem-over-IP)
- * Virtualization
- * Basic media resource capabilities

NEW QUESTION 24

You are working on a solution design for an Avaya Aura 8.1 solution and estimating how many Digital Signaling Processor (DSP) resources will be needed.

Which two types of calls require DSP resources? (Choose two.)

- * H.323 to H.323 calls
- * ad hoc conference calls
- * SIP to H.323 station calls
- * SIP to SIP calls

NEW QUESTION 25

You are designing a Communication Manager (CM) 8 solution with centralized ISDN trunks at the main site and two remote gateway locations. Each remote location will be connected to the main server via dedicated, point-to-point WAN service. Main – CM 8.1 duplex pair with 2-G450s and 250 IP stations Remote 1 – S8300E LSP/G450 with 125 IP stations Remote 2 – S8300E LSP/G430 with 30 IP stations.

To ensure that no one site Is overwhelmed by CM traffic, what is the recommended number of network regions required for this design?

- * 7 regions: 1 at the main, 1 at each remote site, 1 for each site's IP telephones, and one for the virtual network region
- * 4 regions: 1 at the main, 1 at each remote site, and 1 for the virtual network region
- * 3 regions: 1 at the main, and 1 at each remote site
- * 6 regions: 1 at the main, 1 at each remote site, and 1 virtual network region for each site

NEW QUESTION 26

A company needs to add 1200 users to an Avaya Aura deployment, and wants the same level of audio and video services for all users. But there is not enough bandwidth for audio and HD video calls for all of the existing and new users. (Assume HD video uses 1 Mbps.)

What can they do to provide the same audio and video services to all users?

- * Decrease Minimum Multimedia Bandwidth to below 512 Kbps.
- * Increase Total Bandwidth parameter to 20 Mbps.
- * Increase Multimedia Bandwidth parameter to 10 Mbps.
- * Decrease Maximum Multimedia Bandwidth to below 512 Kbps.

NEW QUESTION 27

A customer has provided the following requirements for a basic telephone user:

- * Two line appearances
- * Basic telephony
- * "3 rings then cover to voice mail"
- * No shared line appearances
- * Cheapest telephone
- * Possible low power requirements

Which telephone type would be a good choice for the basic user?

- * 9611G
- * 9641
- * J129
- * J179

NEW QUESTION 28

You are reviewing a design done by another engineer, and want to be sure there are enough Touch Tone Receiver (TTR) resources.

Which component of the design uses TTR resources?

- * H.323 endpoints
- * SIP endpoints
- * Analog endpoints
- * SIP trunks

NEW QUESTION 29

You are trying to determine how many Basic and Mainstream licenses are needed to support a proposal for Avaya IX Messaging.

Which feature requires a Mainstream license?

- * Multiple greetings
- * Full synchronization with 0365 email applications
- * Distribution lists

* Multiple Telephone User Interfaces (TUIs)

NEW QUESTION 30

You are working on a design that includes Avaya Aura Presence Services.

Which statement regarding the Presences Services deployment is true?

- * It always requires one or more dedicated (closed) Avaya Breeze instances.
- * It does not require dedicated (closed) Avaya Breeze instances.
- * It requires one or more general purpose (open) Avaya Breeze instances.
- * It can only be installed on one dedicated (closed) Avaya Breeze instance.

NEW QUESTION 31

You are interested in having multiple devices to register with the same extension number, but use only one user license.

Which three are required for the Multiple Device Access feature? (Choose three.)

- * Avaya Aura Communication Manager
- * Avaya one-X Client Enablement Services
- * Avaya Aura Session Manager
- * Avaya Aura Application Enablement Services
- * Avaya Aura System Manager

NEW QUESTION 32

In preparation for the migration of CS1000 phones to Avaya Aura, your customer is trying to understand how things will work after the migration.

How will CS1000 phones register?

- * To Session Manager via the Avaya Device Adapter
- * Directly to Communication Manger
- * Directly to the Avaya Device Adapter
- * To System Manager via the Avaya Device Adapter

NEW QUESTION 33

Your customer is migrating CS1000 devices to Avaya Aura and is asking what role the Avaya Device Adapter plays.

Which two statements about an Avaya Device Adapter are true? (Choose two.)

- * It is a Breeze Snap-in that provides CS1000 endpoint Call Park and Page functionality.
- * It is a Breeze Snap-in that allows CS1000 endpoint registration with Communication Manager.
- * It is a Breeze Snap-in that allows CS1000 endpoint feature support from Communication Manager.
- * It is a Breeze Snap-in that allows CS1000 endpoint registration with Session Manager.
