**SAP C\_IBP\_2211 Dumps Updated Sep 05, 2023 WIith 80 Questions View All C\_IBP\_2211 Actual Free Exam Questions Sep 05, 2023 Updated NEW QUESTION 40**

What are the outputs of the Calculate Target Inventory Components Operator?Note: There are 3 correct answers to this question.

- \* Target Cycle Stock
- \* Recommended Safety Stock
- \* Component Usage
- \* Reorder Point
- \* Target Pipeline Stock

### **NEW QUESTION 41**

Which constraints are taken into account by the Time-Series-Based Supply Planning Heuristic (Infinite)?Note: There are 3 correct answers to this question.

- \* Transportation lead times
- \* Maximum lot size

- \* Minimum lot size
- \* Adjusted transport receipts
- \* Aggregated constraints

#### **NEW QUESTION 42**

Using the import/export functionality means working with groups of items that are organized into collections. What is the best practice for managing collections?

- \* Configuration items should be bundled in the collections based on the SAP IBP project stream.
- \* A planning area with its time profile must be bundled in one collection.
- \* A planning area with the copy operators assigned must be bundled in one collection.
- \* You should delete collections after they have been transported.

#### **NEW QUESTION 43**

You are setting up planning with lot sizes. What are some of the properties of lot sizes that you need to be aware of? Note: There are 2 correct answers to this question.

- \* Lot sizes are applicable for production and handling quantities.
- \* Periodic lot size setting overrides the minimum lot size.
- \* Lot sizes are time-independent master data settings.
- \* Lot sizes are applicable for production and transportation quantities.

#### **NEW QUESTION 44**

You are reviewing the master data types that are often used for supply and inventory planning

. Which master data types are compound master data types? Note: There are 2 correct answers to this question.

- \* SOURCELOCATION
- \* SOURCECUSTGROUP
- \* SOURCECUSTOMER
- \* SOURCEPRODUCTION

#### **NEW QUESTION 45**

What are the S&OP operator (optimizer) parameters associated with demand fair share?

- \* Number of fair share segments Additional tiering costs (default) Number of fair share segments late delivery
- \* Number of fair share segments Additional tiering costs (default) Inventory days of supply
- \* Number of fair share segments Maximum days of coverage Number of fair share segments late delivery
- \* Number of fair share segments Additional tiering costs (default) Maximum inventory

#### **NEW QUESTION 46**

What are the relevant use cases for helper key figures? Note: There are 2 correct answers to this questions.

- \* Used at any level of calculation level except the Request Level
- \* Used when you have more than three inputs at different planning levels in one calculation
- \* Used by end-users in planning views to help visualize cross-period calculations
- \* Used to break down a large calculation into manageable subcalculations

#### **NEW QUESTION 47**

How can the SAP IBP scenario modeling functionality support business users in the S&OP planning cycle?Note: There are 2 correct answers to this question.

- \* Simulate heuristics run in Supply Review stage
- \* Simulate statistical forecast at the Demand Review stage
- \* Simulate demand sensing inputs for Supply Review
- \* Model inventory turns based on Target Safety stocks

#### NEW QUESTION 48

You are developing the functionality and appearance of the Excel UI for SAP IBP business users.Which extensibility capabilities for SAP IBP, add-in for Microsoft Excel are provided by Custom VBA coding?Note: There are 2 correct answers to this question.

- \* Changing the member names
- \* Changing the layout of the master data workbooks
- \* Changing the entries from the Name Manager
- \* SAP IBP ribbon extension

#### NEW QUESTION 49

Which pre-processing steps can be used to cleanse historical sales data before generating a statistical forecast in SAP IBP?Note: There are 2 correct answers to this question.

- \* Substitute Missing with Mean or Median in Sales History
- \* Intermittency Detection and Correction in Sales History
- \* Promotion Sales Lift Elimination
- \* Bias Detection and Correction in Sales History

#### NEW QUESTION 50

What does ABC/XYZ segmentation allow you to do?Note: There are 2 correct answers to this question.

- \* Substitute missing values in case of sporadic demands.
- \* Use forecasting algorithms that are specific to seasonal demands of SKUs in the segment &#8220;B&#8221;.
- \* Identify inventory items that require closer attention.
- \* Choose time-independent key figures as segmentation measures.

#### NEW QUESTION 51

You have to be logged on to two separate SAP IBP tenants.What can help you differentiate the appearance of their user interfaces?Note: There are 2 correct answers to this question.

- \* Setting a separate theme for the Home page in the Web UI.
- \* Add the system name and tenant information from the About section to the Home page.
- \* Defining a different default planning area via the User Preferences.
- \* Having a different set of tiles in the Home group of apps.

#### NEW QUESTION 52

You created a key figure and want to add calculations.Which of the following rules do you consider?Note: There are 2 correct answers to this question.

- \* Aggregation calculations using SUM or MAX functions must be based on a higher aggregation level.
- \* The calculation chain for a key figure must always result in a calculated key figure.
- \* Key figures can be calculated across different planning levels.
- \* All key figure calculations have calculation inputs, which can be marked as stored or calculated.

### NEW QUESTION 53

Which of the following solutions are feasible when using the time series supply optimizer? Note: There are 3 correct answers to this question.

- \* Violation of minimum resource utilization
- \* Not adhering to maximum transport values
- \* Not respecting production capacity
- \* Violation of minimum aggregated inventory values
- \* Not-fully satisfied demands

### NEW QUESTION 54

You define fixing for a key figure. Which of the following functions are available for this key figure? Note: There are 2 correct answers to this question.

- \* Fixing is possible for manually editable key figures.
- \* Fixing is possible for a certain period, including all child values in the hierarchy.
- \* Fixing is possible for a certain quantity of a key figure value.
- \* Fixing is possible for system editable key figures.

### NEW QUESTION 55

Safety Stock outputs from Multistage Inventory Optimization are sent to which of these processes? Note: There are 2 correct answers to this question.

- \* Decoupling Points determination in SAP IBP for demand-driven replenishment
- \* Supply Heuristics in SAP IBP for sales and operations
- \* Charts creation in SAP Supply Chain Control Tower
- \* Demand Sensing with Gradient Boosting (Full)

### NEW QUESTION 56

What are some of the properties of filter blocks? Note: There are 3 correct answers to this question.

- \* Filter blocks are imposed when modeling an attribute as a key figure.
- \* Filter blocks can be visualized in SAP IBP, add-in for Microsoft Excel
- \* Filter blocks are imposed when modeling attribute transformations.
- \* Filter blocks are imposed when modeling cross-period calculations.
- \* Filter blocks can be visualized in the Key Figure Calculations app.

### NEW QUESTION 57

Which conditions have to be fulfilled as a prerequisite to maintain a key figure disaggregation? Note: There are 2 correct answers to this question.

- \* The key figure is calculated and system editable.
- \* The key figure is stored and all editable.
- \* The key figure is stored and system editable.
- \* The key figure is calculated and all editable.

### NEW QUESTION 58

Which of the following are features of lag-based snapshots? Note: There are 2 correct answers to this question.

- \* Target key figures for these snapshots must have lag as a root attribute in its base planning level.
- \* The number of lag-based snapshots are limited to nine levels.
- \* Lag-based snapshots are created in the Configuration app for a fixed time range.
- \* Target key figures for these snapshots are exposed to the user in planning views.
