Newest 1z0-1080-22 Exam Dumps Achieve Success in Actual 1z0-1080-22 Exam

Oracle 1z0-1080-22 exam is a challenging test that requires candidates to have in-depth knowledge of Oracle Planning applications. To prepare for the exam, candidates can take training courses on Oracle Planning or study the exam topics using study materials provided by Oracle. Additionally, candidates can practice implementing Oracle Planning applications to gain hands-on experience.

To be eligible for the Oracle 1z0-1080-22 exam, candidates should have a solid understanding of Oracle Planning and Budgeting Cloud Service, including its architecture, security features, and functionality. They should also have experience in implementing Oracle Planning Cloud solutions and be familiar with related technologies such as Hyperion Planning and Essbase. Candidates can prepare for the exam by taking Oracle's official training courses or using other study materials such as books, practice exams, and online resources. Passing the exam and obtaining the Oracle Planning 2022 Implementation Professional certification can help professionals advance their careers and demonstrate their expertise in implementing Oracle Planning Cloud solutions.

NEW QUESTION 27

If the HSP_VIEW dimension exists in the cube, what feature has been enabled? (Choose the best answer.)

- * Rolling Forecast
- * Intercompany Eliminations
- * Multicurrency
- * Sandboxes

When a cube is enabled for sandboxes, the HSP_View dimension is created.

NEW QUESTION 28

Which three statements are TRUE for Sandboxes? (Choose three.)

- * After you enable sandboxes for a cube, you can later disable that option.
- * You can enable sandboxes for all Planning cubes and Reporting cubes.
- * If you enable sandboxes for a cube, Version members have the Enable Sandboxes option.
- * You can enable sandboxes only in Planning cubes and for custom cubes created in module-based Planning, not for Reporting cubes.
- * After you enable sandboxes for a cube, you can't later disable that option.

NEW QUESTION 29

Which three accounts in Workforce leverage the Component dimension for driver and trend-based calculations? (Choose three.)

- * Revenue
- * Balance Sheet
- * Expense
- * Cash Flow

NEW QUESTION 30

Which three metadata artifacts can be exported to a flat file? (Choose three.)

- * Exchange Rate Tables
- * Dimensions
- * Smart Lists
- * Linked Reporting Objects
- * Data Entry Forms

NEW QUESTION 31

When setting up a data map, which two options are available for handling unmapped dimensions? (Choose two.)

- * Selecting a single unmapped dimension member on the source to map to multiple unmapped dimension members on the target
- * Selecting multiple unmapped dimension members on the source to map to multiple unmapped dimension members on the target
- * Selecting multiple unmapped dimension members on the source to map to a single unmapped dimension member on the target
- * Selecting a single unmapped dimension member on the source to map to a single unmapped dimension member on the target

NEW QUESTION 32

If you choose to create your own chart of accounts in Financials, which four statements are TRUE? (Choose four.)

- * Predefined drivers and the chart of accounts you brought in can co-exist within the Account dimension member outline.
- * You enable base or parent features to create an account structure with key members for you to add your own chart of accounts.
- * You cannot reuse existing integrated financial statements and must design your own financial statements that include the accounts

you imported.

- * You do not need to enable base or parent features, and instead import the metadata directly into the Financials cube.
- * You can perform calculations using existing rules, and plan using existing forms and dashboards.
- * You input or import your own accounts for each enabled feature.

NEW QUESTION 33

Which statement describes infolets? Choose the best answer.

- * Infolets help you personalize focused data slices that you frequently use for analysis.
- * Infolets help you quickly analyze data and understand key business questions by presenting a visual overview of high-level, aggregated information.
- * Infolets are predefined dashboards that give you insight into overall project financials and expense and revenue metrics.
- * Infolets help you organize, track, and prioritize your workload.

NEW QUESTION 34

In Projects, which is NOT a valid option for Contract project revenue recognition? Choose the best answer.

- * Monthly, Quarterly, or Semiannually
- * After Completion
- * When Paid
- * When Billed

NEW QUESTION 35

Which two clients or command line tools can you download from Planning? (Choose two.)

- * Data Management
- * EPM Automate
- * Strategic Modeling Smart View add-on
- * Calculation Manager

NEW QUESTION 36

In porting data from a BSO plan type to an ASO plan type, which method cannot be utilized? Choose the best answer.

- * Smart Push
- * Data Maps
- * XWRITE business rule
- * Export/Import Capabilities

NEW QUESTION 37

Revenue planned in Projects is rolled up into Financials for contract projects. How must you set up the modules to share the data? Choose the best answer.

- * To capture Project revenue, enable Standard Rates from Projects.
- * When enabling Financials, create a custom Project dimension to map the data to.
- * In Projects, select an entity and map revenue accounts to Financials accounts for that entity.
- * Set up the Contract Revenue Reporting data map to map contract-related revenue to Financials.

NEW QUESTION 38

Which three are predefined Workforce business rules? (Choose three.)

- * Transfer
- * Plan Departure
- * Promote Employee
- * Change Job
- * Remove Existing Employee

NEW QUESTION 39

After enabling Financials, which three are recommended configuration tasks? (Choose three.)

- * Setting up exchange rates (for multicurrency applications)
- * Removing custom dimensions
- * Adding custom expense driver categories
- * Adding custom dimensions
- * Completing Planning and Forecast Preparation

NEW QUESTION 40

Which two are benefits of enabling Use Database Suppression in Smart Push? (Choose two.)

- * It automatically merges comments, attachments, and supporting detail when mapping a cube for reporting.
- * It helps eliminate the impact on query thresholds and improving wait times.
- * It allows you to continue using the application while Smart Push runs in the background.
- * It enables you to apply row suppression at the database level instead of the application level.

NEW QUESTION 41

Which statement is true when executing a lifecycle management migration? Choose the best answer.

- * Restoring Essbase data from a snapshot will remove any data that doesn't exist in the backup.
- * Importing Dimensions will remove members that do not exist in the snapshot.
- * Selected slices of data can be imported into Essbase.
- * All forms that do not exist in the snapshot will be deleted.

NEW QUESTION 42

How do you add custom dimensions when you enable features? (Choose the best answer.)

- * By adding a new dimension with Data Management
- * By adding a new dimension to the cube in Create and Manage Dimensions
- * By renaming a dimension in Map/Rename Dimensions
- * By creating a new dimension in Application Overview

NEW QUESTION 43

In order to set up weekly planning for a continuous 18 months, which three options would need to be selected when initially configuring Financials? (Choose three.)

- * Rolling Forecast
- * Custom Periods

- * Weeks to months mapping
- * Plan Element dimension
- * Weekly Planning

NEW QUESTION 44

What does a navigation flow allow you to do? Choose the best answer.

- * Promote a plan to your supervisor
- * Display report variances by geography
- * Run multiple business rules in a predetermined sequence
- * Customize the clusters and cards that a user can access

The Navigation Flow Designer enables you to customize the business process interface. For example, you can change the names of the cards and clusters that display.

NEW QUESTION 45

In Strategic Modeling Simulations, what are the three guidelines for selecting the appropriate probability distribution? (Choose three.)

- * Select the distribution where the conditions of the distribution match those of the input.
- * Randomly generate a range of values for assumptions and enter best guess estimates one cell at a time.
- * Evaluate the input in question, and list the conditions surrounding this input.
- * Review the descriptions of the probability distributions.
- * Use the Monte Carlo method to best guess your probability distribution options based on a range of assumptions.
