Updated Test Engine to Practice OSP-002 Dumps & Practice Exam

**NO.33** To maintain rated performance, twists in each pair must be maintained to within \_\_\_\_\_ of the termination.

- \* 1/2 inch
- \* 1 inch
- \* 25 mm
- \* 2.5 cm

**NO.34** Attenuation in copper cable \_\_\_\_\_.

- \* Is lower at higher frequencies
- \* Is higher at higher frequencies
- \* Is the same at all frequencies
- \* Is highest at 10 MHz

**NO.35** Rays of light transmitted in multimode fiber are called \_\_\_\_\_.

- \* Reflections
- \* Refractions
- \* Waves

\* Modes

**NO.36** What is the cable from the telecom room (closet) to the work area called?

- \* Horizontal cabling
- \* Backbone cabling
- \* Work area cable
- \* Patchcord

**NO.37** Below is the color code for \_\_\_\_\_.

(Colors from left: 1-8: Blue stripe, Blue, Orange Stripe, Orange, Green Stripe, Green, Brown Stripe, Brown)

- \* TIA 568A Jack
- \* TIA 568B Jack
- \* Punchdown blocks

**NO.38** What do UTP Category 3, Category 5e and Category 6 designations indicate?

- \* The frequency performance grade of the cable
- \* UL-rated Flame retardance of the cable
- \* How far the cable will work in networks
- \* They are trade names for cable types

**NO.39** Structured cabling standards allow for a maximum length of permanently installed (not including patchcords) UTP cable for data of \_\_\_\_\_.

- \* 90 meters
- \* 100 meters
- \* 300 meters
- \* 800 meters

**NO.40** 10 dB corresponds to a factor of \_\_\_\_\_ in power.

- \* 2
- \* 10
- \* 20
- \* 100

**NO.41** What is the installed cable plant from work area outlet jack to the patch panel in the telecom closet called?

- \* Permanent link
- \* Channel
- \* Link cable
- \* Patchcord

**NO.42** Premises cables must be rated for \_\_\_\_\_ to meet codes.

- \* Pull strength
- \* Bend radius
- \* Weight in cable trays
- \* Fire retardance

**NO.43** Which fiber optic test instrument uses backscattered light for measurements?

- \* OLTS
- \* OTDR
- \* VFL

\* Tracer

**NO.44** UTP cable is designed to be pulled with no more than \_\_\_\_\_ pounds tension.

- \* 5
- \* 15
- \* 25
- \* 50

**NO.45** Which punchdown block is more often used with data (Cat 5e/6)?

- \* Bix block
- \* Krone block
- \* 110 block
- \* 66 block

**NO.46** What actually makes the electrical connection with the wires in a 110 block?

- \* Punchdown tool with 110 blade
- \* Insulation displacement connectors in the connecting block
- \* The base of the block
- \* A second cable

**NO.47** The diameter of the core in OM2 and OM3 multimode fiber is how large?

- \* 50 microns
- \* 62.5 microns
- \* 62.5 mm
- \* 9 mm

**NO.48** Which punchdown block is more often used with POTS telephone connections?

- \* Bix block
- \* Krone block
- \* 110 block
- \* 66 block
