Q54. An administrator would like to import Public Applications acquired from the Microsoft Store for Business.

Which configuration is required?

- * LDAP Active Directory Integration
- * SAML Authentication
- * Two Factor Authentication
- * Azure Active Directory Integration

Q55. Which protocol does Workspace ONE use to communicate with third party Identity Providers?

- * SAML
- * Kerberos
- * RADIUS
- * OAuth

Q56. An administrator is preparing to setup email management for Office 365 in UEM.

Which is VMware's recommended email deployment model for this scenario?

- * VPN
- * Proxy
- * Indirect
- * Direct

https://docs.vmware.com/en/VMware-Workspace-ONE-UEM/services/WS1_MEM_Doc.pdf

Q57. Which three are features in the branding section of the Workspace ONE Access console? (Choose three.)

- * Uploading a favicon to display in the browser address bar.
- * Adjusting the name of the Intelligent Hub application on devices.
- * Adjusting the background color.
- * Uploading a logo for sign-in screens.
- * Adjusting the URL of the Access console.

Q58. During an enrollment attempt, a user enters their email address in the initial field in the Intelligent Hub. The user receives an error stating, "Something went wrong with discovery".

Which configuration setting can be enabled to allow end users to enter an email address instead of a Server URL?

- * Autodiscovery Enrollment
- * Pre-Register devices
- * Allow only known users
- * Enrollment Token

Q59. A company has purchased a Workspace ONE UEM SaaS environment and are planning the on-premises servers and services that will be required. A primary use case is allowing AD authenticated end users to access enterprise SharePoint documents through the Workspace ONE Content application.

Which two on-premises servers/services should the company plan for? (Choose two.)

- * Unified Access Gateway
- * Workspace ONE UEM API
- * Secure Email Gateway
- * AirWatch Cloud Connector

- * AirWatch Cloud Messaging

Q60. Which is true about Workspace ONE compatibility when deploying content across different device types?

- * Content cannot be distributed to iOS devices.
- * Content cannot be distributed by Workspace ONE.
- * Content can be distributed to devices types including iOS, Android, Windows, and MacOS.
- * Content can be distributed to devices types including iOS, Android, and Windows.

Q61. Which feature of Workspace ONE UEM can be configured to allow reports to run on a schedule and have them delivered to a subset of administrators?

- * Windows Scheduled Tasks
- * Report Subscriptions
- * Timed Report Execution
- * SQL Server Reporting Services

https://docs.vmware.com/en/VMware-Workspace-ONE-UEM/services/WS1_ReportsAnalytics.pdf

Q62. Which Workspace ONE UEM feature can assist in sending event log information to a Security Information and Event Management (SIEM) tool?

- * Syslog Integration
- * Relay Server Integration
- * Certificate Authority Integration
- * File Storage Integration

During syslog configuration, you can opt to send Console events, Device events, or both. Any events generated by the AirWatch Console are sent to your SIEM tool according to the scheduler settings. Syslog can be configured for both on-premises and SaaS deployments.

Q63. Which three can be used to enforce conditional access in Workspace ONE? (Choose three.)

- * device ownership type
- * device enrollment method
- * device platform
- * application specific
- * network range
- * user-based role

Q64. Which of the following explains the differences between Workspace ONE UEM reports and Workspace ONE Intelligence Custom Reports?

- * Workspace ONE Intelligence Reports uses an on-premises reporting database to push data to a reports cloud service as Workspace ONE UEM Reports extracts data from your Workspace ONE UEM environment.
- * Workspace ONE Intelligence Reports uses a separate service to push data to a reports cloud service and Workspace ONE UEM Reports extracts data from your WS ONE UEM environment.
- * Workspace ONE Intelligence Reports use the same an API service to push data to a reports cloud service as Workspace ONE UEM Reports.
- * Workspace ONE Intelligence Reports use the same service to push data to a reports cloud service as Workspace ONE UEM Reports.

Q65. An administrator would like to configure SSO for Workspace ONE UEM console login.

Which catalog setting from Workspace ONE Access need to be configured?

- * WebApps
- * Virtual Apps

- * Hub Configuration
- * Hub Catalog

Q66. Every time Workspace ONE Intelligent Hub is opened, a passcode is requested for end-users to authenticate. Mobile SSO is configured correctly and the configuration and logs are not showing any errors.

Which should be configured for Single Sign-On to be seamless for end-users without requiring a passcode to access Workspace ONE Intelligent Hub?

- * Device Touch ID
- * Device Security Settings
- * Default AirWatch SDK
- * Device Profile Passcode

Q67. Which of the following is a prerequisite to deploy VMware Unified Access Gateway OVF?

- * VMware vSphere
- * VMware Workstation
- * VMware Fusion
- * VMware Horizon

Q68. A company has BYOD iOS devices and would like to give them access to internal sites in VMware Web without requiring full device management.

Which VMware best practice configuration is needed to enable this?

- * Configure Tunnel for VMware Tunnel in the SDK settings.
- * Configure Tunnel for VMware Tunnel Proxy in the SDK settings
- * Configure a VPN Profile for VMware Tunnel.
- * Configure a VPN Profile for VMware Tunnel Proxy.

Q69. When installing Workspace ONE UEM on-premises, which of the following core components is the first that should be installed?

- * Database
- * AirWatch Cloud Connector
- * Reports
- * Application Server

Q70. Which three Workspace ONE Edge Services are included in Unified Access Gateway? (Choose three.)

- * AirWatch Cloud Connector
- * Content Gateway
- * Secure Email Gateway
- * Workspace ONE Intelligence Connector
- * VMware Tunnel

Q71. Which two platforms can be used with Email Notification Service v2 (ENS2)? (Choose two.)

- * iOS
- * Chrome OS
- * macOS
- * Android
- * Windows CE

VMware Workspace ONE platform is a digital workspace solution that enables businesses to securely deliver and manage applications, desktops, and data to any device, anytime, anywhere. The platform integrates multiple technologies, including VMware Horizon, AirWatch, and Identity Manager, to provide a comprehensive solution that simplifies IT management and enhances end-user experience.
