[2023] Use Valid C_BYD15_1908 Exam - Actual Exam Question & Answer
Test Engine to Practice C_BYD15_1908 Test Questions

SAP C_BYD15_1908 exam is designed to test the knowledge and skills of individuals in SAP Business ByDesign implementation consulting. SAP Certified Application Associate - SAP Business ByDesign Implementation Consultant certification is ideal for those who want to demonstrate their expertise in implementing SAP Business ByDesign solutions for customers. It is suitable for consultants who wish to work on the implementation projects of SAP Business ByDesign solutions.

Q40. Which of the following are steps in the Edit Project Scope guided activity? Note: There are 3 correct answers to this question.
* Implementation Focus
* Dependency and Relevance Check
* Organizational Management

* Country and Type of Business
* Questions

Q41. A company needs to provide statutory reporting in local GAAP within its country of registration.

In addition, IFRS statutory reports are necessary due to group reporting.

Which one of the following approaches can achieve multi-GAAP reporting in SAP Business ByDesign?
* Define one company with a local accounting principle and one with an accounting principle IFRS.
* Close your accounting period in local GAAP and do adjustment postings to achieve IFRS.
* Define one set of books with a local accounting principle and one set of books with an accounting principle IFRS.
* Define one ledger for the local accounting principle and one ledger with an accounting principle IFRS.

Q42. Whichof the following processes lets you monitor the in-transit stock in the “Stock Overview Common Task”?
* Customer returns
* Third-Party order fulfillment
* Intracompany stock transfer
* Intercompany stock transfer

Q43. Which of the following configuration options can you use when creating a time type?

Note: There are 3 correct answers to this question.
* Relevance for work schedules
* Time account posting
* Unpaid indicator
* Relevance for overtime
* Allowed companies
When creating a time type, you can configure the time account posting, unpaid indicator, and relevance for overtime options. The relevance for work schedules and allowed companies options are not available when creating a time type.

Q44. Which of the following options are available when you define an Available-to-promise check? Note:

There are 2 correct answers to this question.
* Consider component demand from production orders
* Consider replenishment lead time and check horizon
* Only consider released receipts without available stock
* Only consider available stock and released receipts

Q45. How would you initiate a third-party order fulfillment process in the system? Choose the correct answer.
* By selecting an externally managed location as the ship-from site in the sales order item.
* By selecting the “Source Of Supply Priority” rule as the procurement type in the planning tab of the material master.
* By selecting “External” for the fulfillment field in the sales order logistics details in the Outbound Logistics Control work center.
* By selecting “External” for the fulfillment field in a sales order item.

Q46. A product can be produced as “Make-to-Stock” and “Make-to-Order”. The product is not batch managed.

Which “Identified Stock type” value do you need to maintain in the product master?

* Identified Stock
* Optional Specified Stock
* Mandatory Specified Stock
* Lot

A product that is not batch managed and can be produced as “Make-to-Stock” and “Make-to-Order” should have the “Identified Stock” value maintained in the product master. This means that the stock is not managed by batch, but is identified by serial number, production date, or other identification features. Q47. Which of the following steps in theproduction process can be automated with the help of “Automated Runs”?

Note: There are 2 correct answers to this question.
* Closing of production lots
* Finishing of production orders
* Confirmation of production tasks
* Release of production orders

Q48. Which of the following tasks can the Marketing work center do?

Note: There are 3 correct answers to this question.
* Manage marketing documents and competitor products
* Track and respond to social media posts
* Manage target groups and campaign response options
* Report marketing success
* Plan marketing events and locations

Q49. An employee’s time recording method is set to “POSITIVE”. The employee is assigned a clock-time based work schedule. The working hours are defined to be from 8:00 to 17:00. The employee is also assigned to a working time account, where planned working hours are capped. The employee records two time entries for a particular day. The first is from 9:00 to 15:00, and the second entry is from 17:00 to 21:00.

What is the posting quantity for this date in the working time account? Choose the correct answer.
* Minus 1 hour
* Plus 1 hour
* Minus 3 hours
* Plus 10 hours

Q50. Which of the following design characteristics apply to the user interface for SAP Business ByDesign?

Note: There are 2 correct answers to this question.
* The work center content is predefined and equal for all work centers.
* Users can create shortcuts to specific work center views or common tasks.
* The layout of the user interface is consistent across all parts of the solution.
* Users can reposition the navigation bar to the left, top or bottom of the screen.

Q51. Which of the following options are available when you define an Available-to-promise check?

Note: There are 2 correct answers to this question.
* Only consider available stock and released receipts
* Consider component demand from production orders

* Only consider released receipts without available stock
* Consider replenishment lead time and check horizon

Q52. Which of the following features are supported in the purchasing process in SAP Business ByDesign?

Note: There are 2 correct answers to this question.
* Purchase acknowledgements
* Requests for quotation
* Just-in-Time Purchasing
* Supplier Portal

In SAP Business ByDesign, the purchasing process supports Requests for Quotation (RFQs), which enable buyers to request quotes from multiple suppliers and compare them in order to obtain the best deals. Additionally, Just-in-Time Purchasing (JIT) is supported in SAP Business ByDesign, which helps organizations procure materials and services just in time for production or delivery, reducing inventory and storage costs.

Purchase acknowledgements and Supplier Portal are not supported in SAP Business ByDesign. Purchase acknowledgements are an optional process step that can be used to confirm that an order has been received by the supplier, and Supplier Portal is a web-based portal that enables suppliers to access and manage their orders and invoices. Neither of these features are supported in SAP Business ByDesign.

Q53. Which types ofpredictive profit information are available for the profit analysis?
* Order Profit

Earned profit
* Invoice Profit

Earned profit
* Invoice Profit

Order profit
* Invoice Profit

Delivery profit

Q54. How would you initiate a third-party order fulfillment process in the system?
* By selecting “External” for the fulfillment field in the sales order logistics details in the Outbound Logistics Control work center.
* By selecting an externally managed location as the ship-from site in the sales order item.
* By selecting the “Source Of Supply Priority” rule as the procurement type in the planning tab of the material master.
* By selecting “External” for the fulfillment field in a sales order item.
The correct answer to this question is B. By selecting an externally managed location as the ship-from site in the sales order item. When initiating a third-party order fulfillment process in the system, you must select an externally managed location as the ship-from site in the sales order item. This ensures that the order is processed by an external organization and the goods are shipped directly to the customer. The other choices are not related to initiating a third-party order fulfillment process and are incorrect.

Q55. An external consultant is ordered to work in a customer project. He is staffed to a work package with service W.

The purchase order contains service O.

The sales order linked to the task contains service S.

Which one of the following services is the external consultant allowed to record in the time sheet?

Choose the correct answer.
* The external consultant can record any of the services.
* The external consultant can record only the work package service W.
* The external consultant can record only the ordered service O.
* The external consultant can record only the sold service S.
