# Practice with C_TS422_2021 Dumps for SAP Certified Application Associate Certified Exam Questions & Answer [Q16-Q37

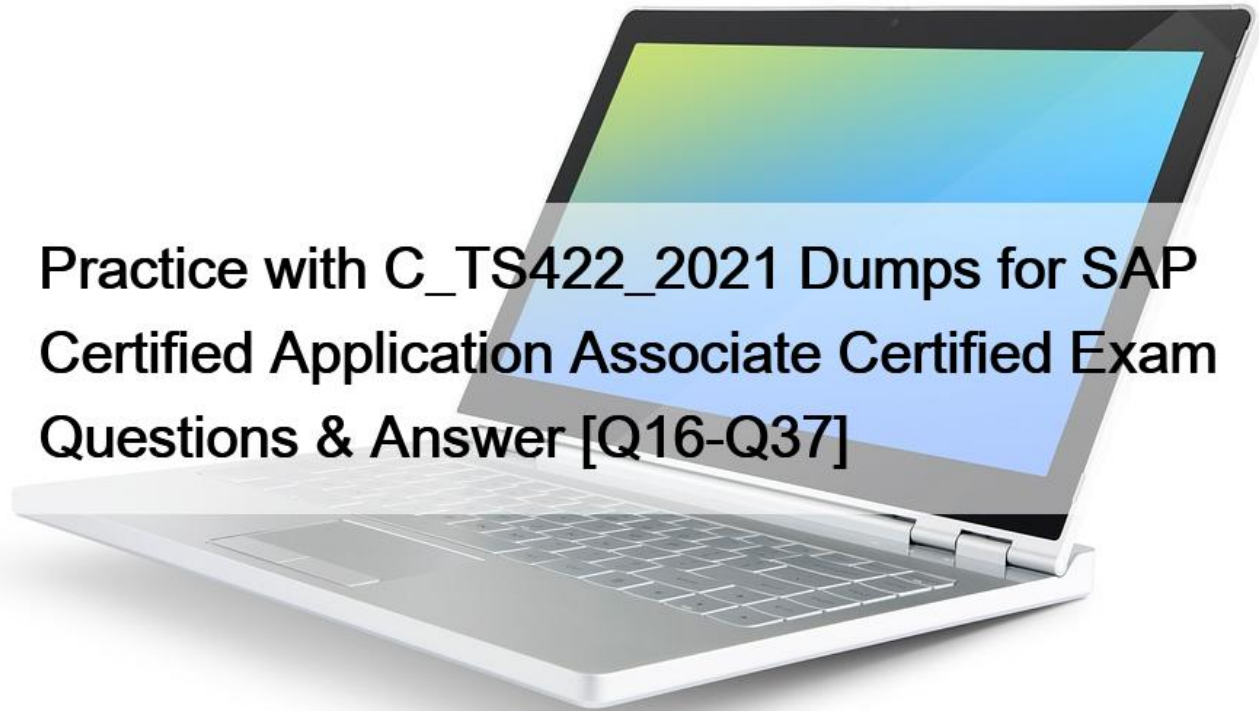

Practice with C_TS422_2021 Dumps for SAP Certified Application Associate Certified Exam Questions & Answer
REAL C_TS422_2021 Exam Questions With 100% Refund Guarantee

SAP C_TS422_2021 exam is intended for individuals who have experience working with SAP S/4HANA production planning and manufacturing and who are looking to enhance their knowledge and skills in this area. Successful completion of this certification exam can lead to career opportunities in SAP consulting, project management, and other related fields. Overall, the SAP C_TS422_2021 exam is a valuable certification for individuals looking to demonstrate their expertise in SAP S/4HANA production planning and manufacturing.

In order to achieve this certification, it is important to prepare well and thoroughly study the material covered in the exam. Candidates can enrol in online courses, attend classroom sessions, read SAP manuals, and take practice tests to better prepare for the exam. Passing the SAP C_TS422_2021 exam requires hard work, dedication, and a clear understanding of the topics covered in the exam.

## NEW QUESTION 16

Which time elements are part of a routing operation?
* Pick/pack time
* Float before production
* Queue time
* Wait time
* Move time

## NEW QUESTION 17

Which information is required when you created a production master in SAP S/4HANA?
* Selective screen for views
* Product type
* Base unit of measure
* Industry sector

## NEW QUESTION 18

Which materials have a negative quantity in a bill of materials or in a recipe?
* Bulk materials
* Co-products
* By-products
* Waste products
* Continuous flow materials

## NEW QUESTION 19

You set up a material as a phantom assembly by entering the special procurement key in the material master.

How can you switch off the phantom assembly in a specific bill of material (BOM)?
* Change the special procurement key of the phantom assembly in the BOM.
* Change the explosion type of the phantom assembly in the BOM.
* Change the phantom item indicator for the phantom assembly in the BOM.
* Change the item category of the phantom assembly in the BOM.

## NEW QUESTION 20

You want to schedule an operation finitely, without moving other operations. Which scheduling strategy do you select?
* Schedule in working time only
* Squeeze in
* Insert operation
* Find slot

## NEW QUESTION 21

What are the consequences if the Dispatched operation status is set for a production order operation?
* You can reschedule the operation using midpoint scheduling in a planning table.
* You can reschedule the operation using finite scheduling in planning table
* You can reschedule the operation using lead time scheduling in a planning table

* You can reschedule the order using infinite scheduling in a planing table

**NEW QUESTION 22**

You want to use capacity availability checks for production orders. Which settings have to be made for this?
* A checking rule must be assigned in the checking control
* The PRT Availability Check must be set in the checking control.
* An overall profile must be assigned in the checking control.
* The Relevant for Finite Scheduling indicator must be set

**NEW QUESTION 23**

In your plant, MRP is activated.

Which option do you have to exclude a materila from the MRP run?
* Use specific MRP controller
* Use a specific material group
* Use a specific material status
* Use a specific MRP type

**NEW QUESTION 24**

For a production version to be valid and consistent what requirements must be fulfilled?
* The assigned routing and bill of materials (BOM) must be valid in the entire validity period.
* The assigned routing must NOT have alternative sequences.
* The deletion flag must NOT be set for the bill of materials (BOM) or the routing.
* The lot size range must be within the lot-size range of the assigned routing.
* The assigned routing must be a rate routing.

**NEW QUESTION 25**

When do you use variant bills of materials (BOMs)?
* When a material has a configurable BOM
* When multiple materials also have similar BOMs
* When a material has multiple BOMs
* When multiple materials have multiple BOMs

**NEW QUESTION 26**

Advanced Planning uses master data and transaction data from SAP S/4HANA. In which data objects can you set the advanced planning flag?
* Work center
* Production version
* Plant
* Material

**NEW QUESTION 27**

Which times elements does MRP consider in backward scheduling to determine he order dates for components from dependent requirements?

* Planed delivery time
* Operation duration
* In-house production time
* Total replenishment lead time

## NEW QUESTION 28

Which of the following processes lead to an entry in the MRP planing file?
* Change of the material&#8217;s procurement type
* Creation of purchasing contract
* Creation of dependent requirements
* Creation of sales order
* Change of the storage bin

## NEW QUESTION 29

The MRP run detected a shortage of a materila that you sorce from an external supplier in full pallets. How can you make sure you will only recive full pallets?
* Use the fixed lot procedure.
* Use the MRP type for vendor managed inventory.
* Use the minimum order quantity
* Use the reorder point

## NEW QUESTION 30

Which of the following elements does MRP take into account during net requirement calculation?
* Purchase orders
* Lot size
* Maximum stock level
* Safety stock

## NEW QUESTION 31

What does a line hierarchy in repetitive manufacturing represent?
* A production line with a parallel sequence in the routing
* A production line with prioritized alternative work centers
* A production line with more than one work center
* A production line with an alternative sequence in the routing

## NEW QUESTION 32

What does forecasting in demand planning cycle include?
* Past quotation quantities
* Past sales order quantites
* Market intelligence
* One-off events
* Past procurment quantities

## NEW QUESTION 33

Where do you maintain data to determine the duration of an operation for production?
* Bill of material (BOM)
* Routing
* Material master
* Work center

**NEW QUESTION 34**

Your quality department detect a deviation in a raw material batch. Unfortunately, this batch has already been used in producion.
How can you indentify all affected finish goods stocks?
* Use the batch information cockpit.
* Use the material staging report.
* Use the material where-used report.
* Use batch determination.

**NEW QUESTION 35**

If the stock level drops below the reorder stock in reorder point planning, what logic would the system use to trigger procurement?
* Fill up based on the lot size procedure
* Fill up to the maximum stock level
* Fill up to the safety stoc level
* Fill up to the reorder stock level

**NEW QUESTION 36**

How can SAP S/4HANA support a GMP-compliant production process?
* Approved resources
* GMP-compliant flag
* Recipe approval
* Batch record
* Digital signature

**NEW QUESTION 37**

Where do you maintain the work center that represents the production line for repetitive manufacturing?
* Production version
* Routing
* Repetitive manufacturing profile
* Production cost collector
