# Free H19-402_V1.0 Exam Braindumps - New 2024 Huawei Pratice Exam [Q215-Q236

Free H19-402_V1.0 Exam Braindumps - New 2024 Huawei Pratice Exam

Practice Test for H19-402_V1.0 Certification Real 2024 Mock Exam

NEW QUESTION 215

UPS5000-E has no built-in transformer.

* True
* False

NEW QUESTION 216

UPS5000-E has a wide voltage and frequency input range, which can be used in harsh power grid environments and extend battery life. What is the input voltage range of UPS5000-E at full load?

* 138-485V
* 305-485V
* 105-485V

NEW QUESTION 217

What are the column-wrapping scenarios of FM2000? (Multiple choice)

* Pillars in the channel
* Column in the cabinet
* Columns spanning cabinets and aisles
* Columns at both ends of the cabinet

NEW QUESTION 218

What is the size of the screen of the FusionModule2000 air conditioner?

* 10 inches
* 7 inches
* 5 inches
* 9 inches

NEW QUESTION 219

The main input voltage range of UPS2000-G- (6K-20K) of each capacity model is 80V~280V, and the input frequency range is 40Hz-70Hz. The ultra-wide input range can effectively reduce the number of batteries switching, avoid high-fault areas, reduce battery charging and discharging times, and extend battery life.

* True
* False

NEW QUESTION 220

Which of the following are the environmental parameter requirements for the main computer room of the data center?

* Temperature 18~27C
* Dew point temperature 5.5~15C
* Relative humidity is not more than 60%
* No condensation in the machine room
* satisfies ABCD at the same time

NEW QUESTION 221

FusionModule1000AV2R3 version supports customized VESDA system

* True
* False

NEW QUESTION 222

What certifications does Huawei's precision cabinet have? (Multiple choice)

* Earthquake resistance
* CE
* UL
* Thiel

NEW QUESTION 223

UPS5000-A system, which of the following battery configurations is unreasonable?

* 32 12V batteries

* 37 12V batteries
* 40 12V batteries
* 42 12V batteries

NEW QUESTION 224

What kind of access control system can the rear door of the FusionModule2000 cabinet support?
* Mechanical combination lock
* IC card access control
* Three-in-one access control
* None of the above

NEW QUESTION 225

FusionModule800 can only support downlink routing
* True
* False

NEW QUESTION 226

The NetEco6000 management system can provide a temperature cloud map function to identify hot and cold spots in the computer room. How many layers of temperature cloud maps does the temperature cloud map support? (Multiple choice)
* Single layer
* Double layer
* Three layers
* Four layers

NEW QUESTION 227

FusionModule800 has the function of automatic start-up of civil air conditioner when receiving a call
* True
* False

NEW QUESTION 228

UPS5000-E can maintain high efficiency in a wide load range and effectively reduce losses. Among them, the efficiency can reach 96% at 40% load and 95% at 20% load. What is the efficiency in ECO mode?
* 97%
* 99%
* 96%
* 98%

NEW QUESTION 229

When using ModBUS to remotely manage UPS500-E, which option should be selected?
* No
* RS232 to USB interface
* ModBUS card

NEW QUESTION 230

When the NetEco management system intervenes in third-party devices outside the micromodule, what kind of monitoring hardware is usually used to access it?
* ECC500 collector
* ECC800 Collector
* Serial port server
* None of the above

NEW QUESTION 231

What kind of inlet and outlet wiring methods can the FusionModule2000 integrated power distribution cabinet implement?
* Down-in and down-out
* Upper inlet and outlet
* Up-line in and down-line out
* Lower inlet and upper outlet

NEW QUESTION 232

The number of batteries in traditional UPS cannot be adjusted, and the battery maintenance cost is high. If one battery is damaged, the entire battery group may need to be replaced. The number of batteries in UPS5000-A can be adjusted, so what is the adjustable range?
* 30-40
* 34-40
* 36-40
* 32-40

NEW QUESTION 233

Which of the following alarm functions does the main circuit of PDU800 power distribution cabinet have? (Multiple choice)
* Current high value over-limit alarm
* Overvoltage alarm
* Main circuit power failure
* Frequency Abnormality
* Undervoltage alarm

NEW QUESTION 234

Considering the low load rate of the UPS system, the UPS5000-E is designed with an intelligent sleep function, which can increase the system load rate and keep the system running efficiently. When the UPS5000E is in intelligent sleep mode, how many power modules are redundant?
* 2
* 1
* 0

NEW QUESTION 235

NetEco6000 management system supports virtualization deployment and adapts to the future cloud computing rhythm.
* True
* False

NEW QUESTION 236

Which of the following UPS does not have a neutral line?
* UPS5000-H
* UPS5000-E
* galaxy5000
* APM150
